## What are Light Traps?

View Of EZDark Assembly

Darkout Systems, Or **Light Traps**, are primarily used for poultry and horticulture applications. Their purpose is to allow maximum air flow into the poultry or green house while reducing light entry as much as possible.

Our **Light Traps** provide the best balance of light reduction, airflow and competitive pricing in the industry.

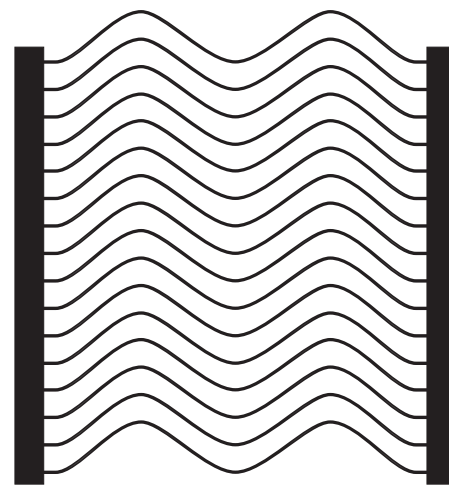

All of our **Light Trap** panels use an innovative and patented ribbed design. The panels are manufactured in North Carolina from quality plastic compounds. The complete systems are packaged and shipped from our Franklinville location.

## What's new?

Our newest addition is the EZDark line of light traps. This design utilizes our patented ribbed panels and our newly designed EZDark panel strip. The EZDark strip eliminates rods, spacers, and end caps. Assembly time of the Light Trap is cut in half with the easy to use EZDark strip.

## Standard Product Dimensions

Listed below are the standard dimensions for the **EZD26** Light Trap. They have an airflow of 799 FPM at 0.15 Static Pressure.

RTS PART NO.	DIMENSIONS
EZD261244	9"X12"X44"
EZD261254	9"X12"X54"
EZD263660	9"X36"X60"
EZD264860	9"X48"X60"
EZD266060	9"X60"X60"
EZD267260	9"X72"X60"
EZD264848	9"X48"X48"

Listed below are the standard dimensions for the **EZDBROWN** Light Trap. They have an airflow of 880 FPM at 0.15 Static Pressure.

RTS PART NO.	DIMENSIONS
EZDBRN3660	5"X36"X60"
EZDBRN4860	5"X48"X60"
EZDBRN6060	5"X60"X60"
EZDBRN7260	5"X72"X60"

These are standard dimensions. **Light Traps** can be ordered to fit your particular application.
